SUMMARY

Highly skilled and versatile Computer Science Engineer with a passion for cutting-edge technology and a track record of excellence in Salesforce Development, Software Development, and Web Development. Equipped with a strong understanding of programming languages, frameworks, and methodologies, excels in designing and implementing innovative solutions to address complex challenges. Demonstrates adaptability to evolving technologies and a keen eye for detail, creating seamless user experiences and driving business growth. Embracing a proactive and collaborative approach, actively seeks opportunities to enhance efficiency, scalability, and performance across diverse projects, contributing to significant impact in the world of digital transformation.

WORK EXPERIENCE

Associate Software Developer, Cyntexa

July 2022 - Present

- Led the development and customization of B2C Commerce Cloud storefronts, implementing responsive designs and user-friendly interfaces to deliver engaging and intuitive online shopping experiences.
- Utilized JavaScript, HTML, and CSS to enhance storefront functionality, including cart management, product display, and checkout processes, resulting in improved conversion rates and customer retention.
- Integrated third-party applications with Salesforce using REST and SOAP APIs, facilitating seamless data exchange and process automation.
- Leveraged Vlocity OmniScript and Vlocity Cards to create dynamic and guided user experiences, improving agent efficiency and customer satisfaction.
- Designed and implemented data models, custom objects, fields, and validation rules to maintain data integrity and improve data management within the organization.

Front-end Developer, Tribal Connect: Connecting Our Roots

June 2021 - September 2021

- Developed and maintained the NGO's website, employing HTML, CSS, JavaScript, and other web technologies to create a visually appealing and user-friendly online platform.
- Collaborated with cross-functional teams, including designers and content creators, to ensure seamless integration of visual elements and compelling content for the website.
- Implemented responsive design principles to optimize the NGO's website for various devices, enhancing accessibility and user experience across desktop and mobile platforms.

Web Designer and Developer, The Sparks Foundation

August 2021 - September 2021

- Designed and developed a secure and user-friendly basic banking system using HTML, CSS, and JavaScript, providing essential functionalities such as account creation, balance inquiry, fund transfers, and transaction history.
- Successfully integrated a payment gateway, such as PayPal, Stripe, Razor Pay or another provider, into an e-commerce website, enabling secure and seamless online transactions for customers.
- Implemented the necessary server-side APIs and client-side JavaScript to handle payment processing, including payment authorization, capture, and error handling.

EDUCATIONAL BACKGROUND

Anand International College of Engineering
Bachelor of Technology in Computer Science, 2019-2023

Maheshwari Public School

Secondary Education, 2017-2019

SKILLS

- Salesforce Administration
- Apex
- SOQL
- LWC (Lightning Web Components)
- OCAPI
- NodeJS
- SFRA
- OmniScripts

- HTML, CSS & JS
- Database Management (SQL)
- C/C++
- VS Code
- Github
- Jira
- Bigbucket

CERTIFICATIONS

Salesforce Associate
Salesforce

Algorithmic Toolbox

Coursera, University of California San Diego

Introduction to Cloud

IBM

Overview of Planetary Geosciences with special emphasis to the Moon and Mars

ISRO

Data Science Math Skills

Coursera, Duke University

PARTICIPATIONS

Winter Study Tour, 2023
Ajman University, UAE

29th January - 4th February 2023

SoftTech Hack-2021(Offline and Online)
Won 1st Prize, Anand ICE

9th & 10th March 2021

SITE-2K21 (Offline)
Participation, Shankara Institute Of Technology

Shankara Institute Of Technology
19th & 20th March 2021
